7th of October (next newsletter 21th of October)

Announcements of committees

Actie

Traditional Games Night

It's time for our first Traditional Games Night (TGN) of this year. At the TGN we come together to play classic card games, board games and games with dices. You can bring your own games or play games provided by us. Every one is welcome at Café Atlantis (Gedempte Zuiderdiep 61) at 20:00 until late.

Tuesday 15th of October, traditional games night @ café Atlantis, 20:00

IntroCie

The Finale

We hope you enjoyed the Introductory Camp, and you probably recovered from the hectic first few weeks. This means there is no better timing for the Introductory Camp Afterparty! We invite you all for the afterparty which is themed "The Finale". Put on your best TV-series related outfit (Optional) and enjoy the finale of this year's Introductory Camp! The party will start at ~21:00 at the first floor of "Le Barrage". We will see you there! The Introductory Committee PS: People who were not at the introductory camp are also welcome!

Thursday 17th of October, introductory camp after party @ Le Barrage, 21:00

PCie

Working in the SLACK

Next thursday, the 10th of October, starting from 10am the computer committee (PCie) will be cleaning up the computer area of the Cover room (SLACK). This means that as long as we're working, it will unfortunately not be possible to work at the desks. Other than this, the SLACK will be open, so using the couch area is no problem.

StudCie

Workshop LaTeX

Are you also utterly frustrated when you want to make your practical report with LaTeX? Have you always wanted to be a master in fitting your images with LaTeX? Or are you wondering why the hell we are giving a workshop about LaTeX? Then you can not miss this workshop!

In the first hour of the workshop you will get an introduction in the wonderful world of LaTeX. We will just start with the basics about how to lay-out your LaTeX-document. However, we will also show how to fit in your code, lists, references, tables and images. In the second hour you will use all the things you have just learned! The StudCie will be there for you during your inevitable struggles with LaTeX's compiler. **N.B.** This workshop will be given in **Dutch**

Tuesday 22nd of October, workshop LaTeX @ room 228 of the BB, 15:00

Announcements of the board

Constitutional general assembly

Our last one!

The next Monday our end will be there! On this day the constitutional general assembly will take place. During this assembly the candidate board will present their policy, and hopefully take on our role as the board of Cover. Additionally we will discuss a change in our by-laws, and the annual reports of our committees and, of course, of ourselves. Finally the (no longer) candidate board will present their budget, advisory board and audit committee. We hope you will all be able to join us.

Monday 14th of October, constitutional general assembly @ Decadent, 19:00

New committee members

LanCie

Jan-Willem Moen
Sytze Tempel

StudCie

Rolf Daling

Have lots of fun in your new committees!

Discharged

No people were discharged in the past 2 weeks.
